**GRANT PROFESSIONALS DAY**  
FOUNDED BY THE GRANT PROFESSIONALS ASSOCIATION

## PRESS RELEASE

For Immediate Release  
February 20, 2018

### International Grant Professionals Day - March 9, 2018

**Overland Park, KS and Washington, DC:** Global Grant Solutions, LLC has partnered with the Grant Professionals Association (GPA) to announce the fourth annual International Grant Professionals Day on March 9, 2018. International Grant Professionals Day increases awareness internationally of the work grant professionals perform as well as celebrates the work of grant professionals, who serve as administrators, consultants, managers, grant-makers and writers.

Every day, grant professionals work diligently, usually behind the scenes, to seek grant opportunities, administer projects and implement important programs for the benefit of society's disadvantaged and underserved people. These talented professionals are dedicated to providing the highest standard of ethics, quality program development, thoughtful project implementation and wise financial stewardship. Often, those standards extend beyond the mere financial and include capacity support, long term solutions to challenges, fundraising assistance, expert project management, sustainable programming and so much more.

*"Please join me in celebrating International Grant Professionals Day. Grant professionals are actively involved in improving society, from roads to schools, from small business to health care, from advancements in technology to helping communities recover from disasters. All of us are impacted by the hard work that grant professionals accomplish to make our communities better. Please share your gratitude with a grant professional today."* stated Jo Miller, GPC, President of GPA.

Events planned for March 9, 2018 encourage grant professionals and their organizations to celebrate themselves, the profession and highlight important issues faced by grant professionals.

GPA is a professional organization that builds and supports a community of grant professionals committed to serving the greater public good.
