International Grant Professionals Day - March 13, 2020

Overland Park, KS / Washington, DC: Global Grant Solutions has partnered with the Grant Professionals Association (GPA) to celebrate the sixth annual International Grant Professionals Day on March 13, 2020. International Grant Professionals Day increases awareness internationally of the work grant professionals perform as well as celebrates the work of grant professionals, who serve as administrators, consultants, managers, grant-makers and writers.

Every day, grant professionals work diligently, usually behind the scenes, to seek grant opportunities, administer projects and implement important programs for the benefit of society's disadvantaged and underserved people. These talented professionals are dedicated to providing the highest standard of ethics, quality program development, thoughtful project implementation and wise financial stewardship. Often, those standards extend beyond the mere financial and include capacity support, long term solutions to challenges, fundraising assistance, expert project management, sustainable programming and so much more.

"I will never forget the excitement heard in Danny Blitch's voice when he called me to announce International Grant Professionals Day was going to be a reality in 2014. Danny and I were both grant administrators for neighboring municipalities at that time, and he had longed pushed for a visible way to recognize our profession. I'm beyond pleased that the Grant Professionals Association jumped at the chance to spearhead this day of celebration, recognition, and congratulations for grant professionals worldwide. Whether your work as a grant professional impacts people, animals, the environment, public policy, or something else altogether, I thank you for your service in bringing about change for the good of our earth and those who call it home. Today is your day, so live it up with me and your fellow grant pros! And if you work with a grant professional, be sure to thank them today (and every other day)" states Amanda Day, GPC – Board President of Grant Professionals Association.

Events planned for March 13 encourage grant professionals and their organizations to celebrate themselves, the profession and highlight important issues faced by grant professionals.

Grant Professionals Association is an international membership association for everyone in the grants industry. GPA and its affiliates work to advance the profession, certify professionals and fund professionalism.
